

```
#pattern 4
row=5
for i in range(row,0,-1):
    for j in range(1,i+1):
        print(j,end="")
    print("")
```

The screenshot shows the Visual Studio Code interface with a file explorer on the left, a code editor in the center, and a terminal at the bottom. The file explorer shows a project named 'vs code progss' with various files. The code editor displays the same Python code as the first block. The terminal shows the command to run the script and the resulting output, which is a pattern of numbers from 1 to 5 arranged in a descending staircase shape.

```
pattern4.py - vs code progss - Visual Studio Code
```

```
1 #pattern 4
2 row=5
3 for i in range(row,0,-1):
4     for j in range(1,i+1):
5         print(j,end="")
6     print("")
7
```

```
[Running] python -u "c:\Users\HP\OneDrive\Desktop\vs code progss\pattern4.py"
12345
1234
123
12
1

[Done] exited with code=0 in 0.077 seconds
