

Q.5>>Develop python function to produce the following output:

```
& & & & &
&           &
&           &
&           &
& & & & &
```

```
#hollow square
n=int(input("enter the height:"))
for i in range(0,n):
    for j in range(0,n):
        if(i==0 or i==n-1 or j==0 or j==n-1):
            print("&",end=" ")
        else:
            print(" ",end=" ")
    print()
```
