

```
#print no
n=10
i=0
while i<10:
    print(i)
    i+=1
```

The screenshot displays the Visual Studio Code interface. The Explorer sidebar on the left shows a project named 'PYTHON PROGRAMMING' with several files, including 'print no.py' which is currently selected. The main editor window shows the code from the first image, with line numbers 1 through 7. Below the editor, the 'TERMINAL' tab is active, showing the command `python -u "c:\Users\HP\OneDrive\Desktop\python programming\print no.py"` and its output, which lists numbers from 0 to 9. A status message at the bottom of the terminal indicates '[Done] exited with code=0 in 0.075 seconds'. The Windows taskbar is visible at the bottom of the screen.

```
1 #print no
2 n=10
3 i=0
4 while i<10:
5     print(i)
6     i+=1
7
```

[Running] python -u "c:\Users\HP\OneDrive\Desktop\python programming\print no.py"
