

```
#pattern 3 with space
```

```
n=5
```

```
for i in range(1,6):  
    for j in range(1,i+1):  
        print(i,end=" ")  
    print()
```

The screenshot shows the Visual Studio Code interface with the file explorer on the left displaying a list of Python files. The main editor window shows the output of a Python script executed in the terminal. The output is a pattern of numbers and spaces, where each line contains a sequence of numbers from 1 to the current line number, followed by a space. The pattern is as follows:

```
1  
2 2  
3 3 3  
4 4 4 4  
5 5 5 5 5
```

The terminal window shows the command used to run the script: `python -u "c:\Users\VIP\OneDrive\Desktop\vs_code progs\pat_3_space.py"`. The status bar at the bottom indicates the current file is `pat_3_space.py` at line 6, column 17, with 4 spaces, using UTF-8 encoding and CRLF line endings. The Python version is 3.11.1 64-bit.
